The Carbide People

**EPES Carbide** was established on April 1991 in Singapore. Since its establishment, the company has experienced steady growth, gaining widespread recognition among new and loyal clients alike for the high quality of its products.

At EPES, we provide prompt and cost-efficient solutions to complex requirements, meeting and even surpassing our clients' expectations

Our specialties of carbide products are:

- Various types of punches
- Various types of button dies
- Various types of draw dies & punches
- Various types of profile punches
- Various types of special shaped punches & dies
- Preform carbide.

We also provide carbide material precisely to clients' requirements and specifications such as:

- Various sizes of ground rods
- Various sizes of ground blocks

As a One-Stop shop for your carbide needs, we also offer design & fabrication of carbide progressive dies.

The benefits of using EPES Carbide products and services:

- Our on-line product catalogue will efficiently assist you in locating the exact part you need.
- Our direct sales system by on-line order will effectively save your time.
- All our products are backed by our money-back guarantee.

We strive to maintain and ensure delivery of our high-quality precision components within the shortest time frame.

All enquiries on carbide products are welcome.
